

MCFC - General Update

May 8, 2026

Harvesting:

Working on harvest plan for spring/summer.

Markets are not looking good at this time. Will start calling around soon.

Roads:

ORM working up Spinner Road to control water.

Schapansky working on 400 road to control water. Will clean up deactivated bridge site in block SS05 and build a quad bridge for planting access.

Bridges:

Quiet

Planning/Other:

RT King and ORM to start collecting SP data and riparian information when conditions allow.

Working on Phoenix data input and results submissions. Last bits and pieces.

ORM completed scanning of 2025/26 burn piles. Everything was cold. Report coming soon.

MOF looking to aerial fertilize some of our older stands. Reviewing whether we are in favour of this project and which blocks are planned. Once a block is fertilized there is a delay of 7 years until a commercial thin can occur.

Silviculture:

ORM has been contracted to complete SP amendments. When the amendments are complete, they will submit into Phoenix and then RESULTS.

Integrity contracting will start tree planting during the week of May 11. 250,000 trees.

Clausen Contracting will start silv surveys when conditions allow.

Recreation: Rosy to start Rec site maintenance soon.
