

MCFC - General Update

July 6, 2026

Harvesting:

Working on harvest plan for summer season.

Markets are poor for SPF sawlog. There is no pulp market.

Cedar markets are strong and hemlock sawlog is strong for VIP sawmill.

Roads:

ORM upgrading and spot graveling Upper Clyde ML.

ORM to finish construction of the Powerline Road (2km).

Working on a road development plan for this summer/fall.

Bridges:

DWB has been lined up to complete a survey and design in Clyde Creek area.

Planning/Other:

RT King and ORM to start collecting SP data, riparian information and a general review of layout.

DWB has been contracted to complete fish studies on creeks in the Clyde Creek area above highway 16.

Silviculture:

Integrity contracting has completed planting trees for the year. We are 95%+ planted.

Clausen Contracting is lined up to complete silviculture surveys this summer/fall.

Organizing a brushing program for this year, estimated at 100ha.

Recreation:

Rec site maintenance ongoing.

Specialized Forest Management has been contracted to build the MCF Lucille trail.
